## LIVING ON THE LEADING EDGE

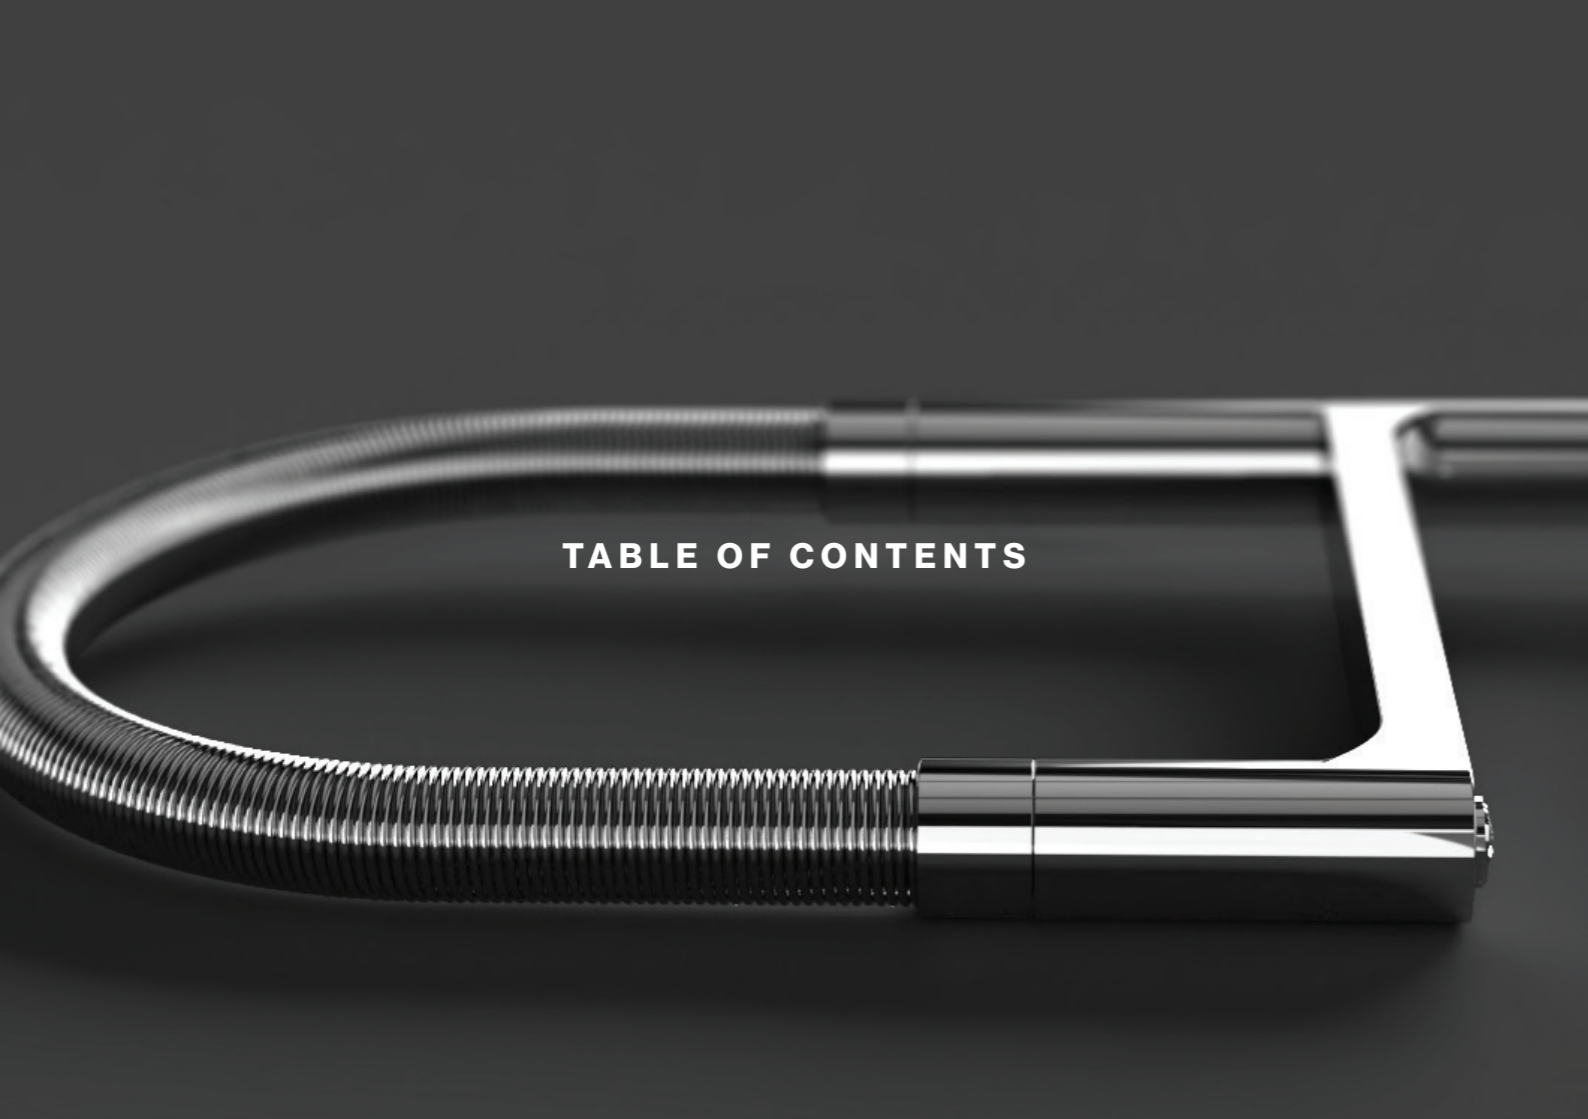

OF DESIGN & TECHNOLOGY

Living on the leading edge, Meissen's products perfectly and carefully combine design and technology to create the world's best kitchen and bathroom solutions, contributing to a higher level of gracious living for every customer.

The Meissen ranges of clean, innovative and elegant mixers are inspired by the magnificent and timeless mountain ranges of Eastern Germany. Each and every product has been designed and developed to feature not only as a mixer, but as a beautiful and breathtaking piece of art.

Meissen's signature collection is crafted from high-grade materials. Using state-of-the-art technology and a passion for innovation, Meissen is a pioneer in the design and craft of premium bathroom and kitchen mixers and all complementary finishes.

Using the most advanced engineering equipment & technology, we are able to create the most durable and high-quality products. Our passionate and inspiring designers continuously innovate and create beautiful products for everyone to enjoy.

## THERMOSTATIC BUTTON CONTROL MIXER

With its advanced technology the Meissen's thermostatic shower mixer gives you the ultimate shower experience. Our thermostatic mixer valve offers three key benefits: safety, convenience and economy.

**Safety** – Your pre-selected water temperature remains constant for the duration of your shower, so there's no risk of scalding from a sudden temperature increase and no surprising shocks should the temperature plummet. With an anti-scald safety function which limits the temperature at 38°C.

**Convenience** – Our thermostatic mixers will maintain your pre-selected water temperature, leaving you to relax and enjoy your shower. Should you wish to stop the water, the thermostat will automatically find the exact same temperature when you re-start the flow.

**Economy** – Install a thermostatic mixer and you can save water and energy too.

# OUR MUST KNOW GUIDE

EVERYTHING YOU SHOULD KNOW  
ABOUT MEISSEN PRODUCTS

Visit our website at [www.mymeissen.com](http://www.mymeissen.com)

## NEOPERL

AERATOR

### PERFORMANCE

The aerator is a key component in the overall performance of a mixer. The aerator determines how the water is delivered to the user. Meissen's ranges of mixers utilize the best aerator technology available.

### GERMAN / SWISS TECHNOLOGY

All of Meissen's ranges use Neoperl aerators. Each with features and benefits for functionality, efficiency and aesthetics.

*Read more about Neoperl aerators on their international website at: [www.neoperl.com/global/en/home/](http://www.neoperl.com/global/en/home/)*

## CITEC

CARTRIDGE

### THE HEART OF THE FAUCET

We have partnered with CITEC, one of Europe's leading manufacturers, using the most advanced ceramic based cartridge technology. We ensure that our mixers deliver the best level of performance for all of our proud users by regulating the flow & temperature as efficiently and effortlessly as possible. All of Meissen's cartridges come with a 15 year guarantee.

*Read more about Citec cartridges on their international website at: [www.citecgroup.com/en/](http://www.citecgroup.com/en/)*

## DZR

BRASS

### SABS DZR GRADE BRASS

All of Meissen's products are manufactured using the SANS standard of DZR brass, which was first introduced as a British standard and has been adopted by the SABS as a requirement in order to carry the SABS Mark.

### WHAT IS DZR BRASS?

"Dezincification resistant brass" or DZR brass is the name given to brass with exceptional resistance to a form of corrosion called dezincification."

*Read more about DZR brass in the 'Meissen-DZR brass' document on our website.*

## KWIK-FIT

FIXATIONS

### BENEFITS

The Meissen "KWIK-FIT" tubular fixation set provides the installer with an easier and more stable installation.

### HOW-TO

Simply secure the mixer to the basin or sink by tightening the tubular fixation with your hands as opposed to using a spanner / wrench. This is very useful when working in tight spaces.

## FLEXIBLE

### HOSES

#### BRAIDED FLEXIBLE HOSES

Meissen faucets come with 450mm long hoses, 15mm (1/2") which makes for a far easier installation. The extra 100mm provides more than adequate length, no matter whether it is a retro-fit or new installation. The short & long male ends provide more space for the installer to thread the hoses into the mixer. Our hoses come with 2 o-rings, this provides twice the sealing security. All Meissen hoses are SABS approved.

## FINISH

### & SURFACES

#### CHROME

Using advanced electroplating techniques, all of Meissens radiant chromed products receive the highest level of chroming that technology has to offer. Meissen products undergo a 200 hour salt spray test, which is one of the most widespread and long-established corrosion tests.

#### COLOURS

**PVD / Physical Vapor Deposition** - Vita Satin Brass & Vita Graphite.  
**Powder Coating** - Vita Double Black & Sterlyn Double Black.

*Read more about our colours in the 'colours explained' document on our website.*

## GUARANTEE

### OUR PROMISE

#### CHROME

Our Meissen signature collection of chrome faucets come with a 15 year Guarantee on manufacturing defects, and a 10 year guarantee on Meissen's shower collection of chrome products. Be sure to have a look at our website for more information on our guarantee.

#### COLOURS

All of our Meissen colours come with a 5 year Guarantee on manufacturing defects.

*Read more about our guarantees in the 'Meissen-guarantee' document on our website.*

## SABS

### APPROVED

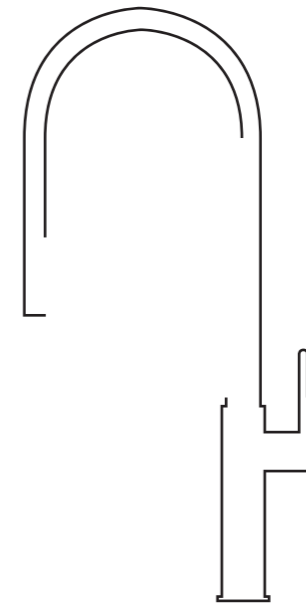

#### WHAT DOES THIS MEAN?

"The SABS mark is a process of certifying that a certain product has passed performance tests and quality assurance tests and meets qualification criteria stipulated in a standard, specification or regulation."
